

# Lego Land

By: Heather

Once a year me and my grandma and grandpa have a fun day. One was at Lego Land. It was so much fun. I rode so many rides.

One was the Lego Blaster and you got this plastic gun and you got this little gocart with no roof.

Then, you got in and got the gun. There were targets everywhere and we pointed the gun at them and got one point. I rode seven times.

Grandpa always ended up with the most points. Me and grandma always had the least points.

After that, we watched a 3D movie. It was about a bank robbery and they went through a car wash. Water and bubbles fell down on us. I laughed so hard.

We decided to ride one more ride. We got on and there were pedals that you had to pedal. When we pedaled, our seats went high. We stopped after a while because grandpa said that his feet hurt. We got a snow cone.

and left. I hope I can go there  
again! It was a lot of fun.
