

Missouri Windsong
Written by: Callia

Trees gleam
Lights sing
Forest windy and cold

Where the animals belong
Their house
Their home

Big and small
Colors of all
Beauty and character
Wind's sweet song

Birds whistling in the snow
Songs so beautiful
The sun on our backs
So warm and peaceful

Sweet smells of nature
On the tip of my nose
God made bears and their bear cubs

The deer's sweet pattering of their hooves
The wind whistling in our ears
Knowing that it is close
Singing its beautiful song

Graceful goes the leaves
When the trees
Dance in the wind
