

My Camping Trip

One fun memory I had in Missouri was when me and my family went camping at Arrow Rock State Park. We had so much fun, we even sailed boats in the creek right next to our campsite! We also went on a fun hike! It was very rocky, but I liked that I got to spend time with my family.

At night, we lit the campfire and roasted hot dogs. For dessert my mom brought along smores! After we finished off the smores it was time to go to bed. The crickets were humming outside, we looked out our mesh sunroof on our tent at the starry night sky and went to sleep. In the morning, we rode our bikes on a trail and went to the small, nearby town to get ice cream. When we came back, we packed up our stuff to leave. It was an excellent weekend!
